Who are we?

Participatory Ecological Land Use Management (PELUM) Tanzania is a legally registered network of Civil Society Organizations (CSOs) that have come together to facilitate and promote networking, learning and advocacy in participatory ecological land use management/sustainable agriculture. PELUM Tanzania target groups are the Member Organizations while the beneficiaries are the smallholder farmers and livestock keepers supported by these Member Organizations. Founded in 1995 by five members, the current membership of PELUM Tanzania is 33 legally registered Civil Society Organizations spread in 16 regions of Tanzania Mainland.

PELUM Tanzania is one of the ten (10) Country Working Groups forming PELUM Association which has its head quarters in Lusaka Zambia with members in Eastern, Central and Southern Africa region. The Association has come together to facilitate learning, networking and advocacy in ecological land use management (elum).

Our Vision

Organized, vibrant and prosperous smallholder farming communities deriving their livelihoods from sustainable ecological land use

Our Mission

To facilitate the process of sustainable development with large emphasis on ecological land use management through building the capacity of Member Organizations working with smallholder farming community by networking, documentation, lobbying and advocacy, and mainstreaming of gender, HIV / AIDS and climatic change.

Strategic Objectives

- Ecological land use management principles and practices among PELUM Tanzania members and stakeholders promoted for sustainable agriculture.
- Networking, collaborations and linkages among and between PELUM Tanzania Member and Partner Organizations strengthened

for effective information and experience sharing on sustainable agriculture related issues.

- Evidence based information in promoting sustainable agriculture and ecological land use management practices availed.
- Agricultural related resources benefit smallholder farmers and livestock keepers in promoting sustainable agriculture.
- Effects of climate change and global warming in sustainable agriculture reduced.
- Gender, and HIV and AIDS in PELUM Tanzania Member and Partner Organizations' interventions mainstreamed in order to reduce their negative effects in promoting sustainable agriculture.
- Capacity of PELUM Tanzania governance, Country Working Group and Country Secretariat strengthened to effectively and efficiently execute its core business.

How do we work?

The core business of PELUM Tanzania is promoting sustainable ecological land use management. PELUM Tanzania does not work directly with the smallholder farmers; instead it works through Member Organizations. Member organizations (MOs) are the ones who work directly with smallholder farmers and livestock keepers. PELUM Tanzania uses the following working approaches:

- Networking,
- Capacity building of Member Organizations,
- Documentation and Communication,
- Advocacy with and for farmers and Members, and
- Collaboration and partnership.

Who can join?

The membership is voluntary; PELUM Tanzania invites all registered NGOs and government institutions dealing with sustainable agriculture to join the network. Membership require registration fee which is also the membership fee for the respective year. The membership fee is paid every year. Qualifications for PELUM Tanzania Membership are:

- Be a legally registered organization with at least one year on the ground,
- Engage in, support or subscribe to ecological land use management,
- Exhibit record and experience in promoting sustainable agriculture,
- Actively promote indigenous knowledge and skills in agriculture and natural resources management,
- Supporting/working with smallholder farmers as key in sustainable development,
- Be committed and willing to share knowledge and skills through networking with other PELUM members.

How to apply for membership

- Eligible and interested applicants shall send a request for membership application forms to the Country Secretariat or download the forms from PELUM Tanzania website (www.pelumtanzania.org),
- On receiving the forms, fill them and send the forms to PELUM Tanzania Country Secretariat by post, email or hand deliver,
- The application shall be presented to the Board to admit/approve or reject the application. If approved, the Board shall also decide the type of membership under which the new member will be admitted,
- Whether approved or not, the applicant shall be notified in writings. If not approved, the applicant shall be given reasons for the Board's decision,
- The approved application shall be presented to the Annual General Meeting (AGM) for endorsement, and
- Payment of the annual membership fee shall start after the endorsement by the AGM.

Benefits of membership to PELUM Tanzania

- Participation in PELUM organized events (trainings, workshops, visits, meetings and other activities) at national, sub regional and regional levels,
- Information sharing,

- Networking with other NGOs and initiatives at national and international levels,
- Support to smallholder farmers that Member Organizations work with, and
- Learning and sharing best practices and case studies within PELUM network.

Members' obligations to PELUM Tanzania

- Adhere to PELUM Tanzania Constitution,
- Pay annual membership fees,
- Take part in the implementation of PELUM Tanzania activities, and
- Promoting PELUM Tanzania visibility.

Cessation of Membership

Membership to PELUM Tanzania shall cease upon the occurrence of any of the following events:

- If a Member voluntarily resigns by a written notice duly served to the Chairperson.
- If a Member is summarily terminated from PELUM Tanzania by the

Annual General Meeting for ceasing to share the spirit and word of the Constitution.

- If a Member fails to attend the Annual General Meeting for three consecutive years, with or without notice, and
- If a member fails to pay annual membership fee for two years consecutively with or without notes.
